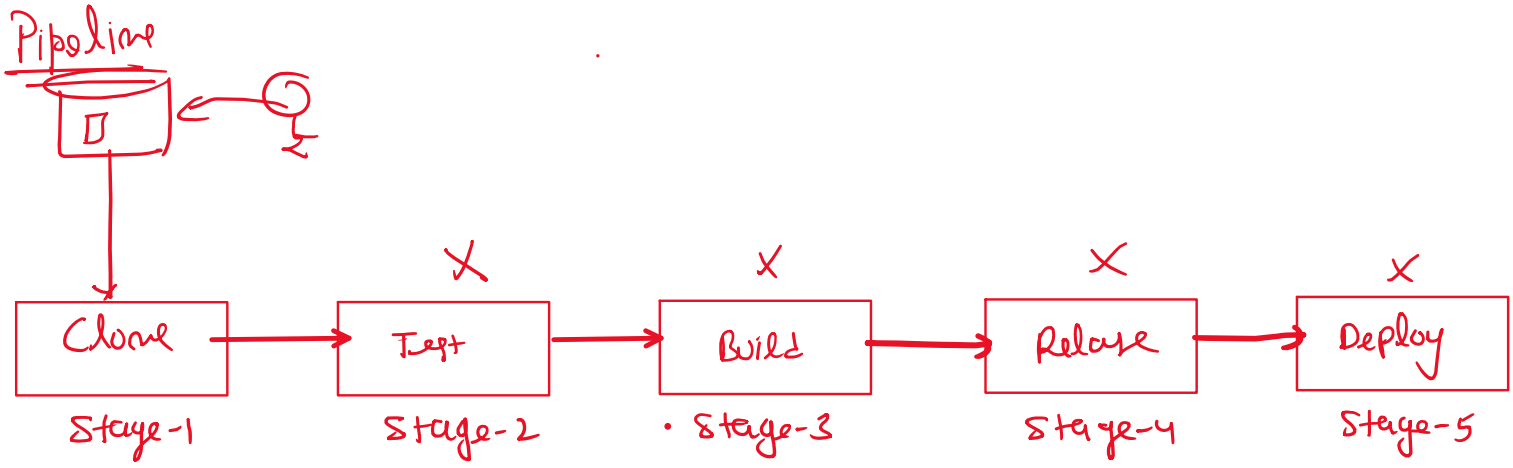
Pipeline



pipeline Script (Groovy)

```
pipeline
{
    stages
    {
        stage("Clone")
        {
            steps
            {
                ____
            }
        }
        stage("Test")
        {
            steps
            {
                ____
            }
        }
    }
}
```
